

HANOVER R.S. LIMITED PARTNERSHIP

December 8, 2009

To whom it may concern,

Granite America performed the installation of granite countertops for the Hanover Company for a 379 unit luxury apartment project. In addition, Granite America provided exterior work including granite paver, stair treads and risers. During the project they were extremely professional, prompt and diligent during all phases of the project including design, procurement and installation. Their work on the outside required an intense amount of engineering and quality craftsmanship involving a radius stair with sloping treads. It is Hanover and my personal opinion that Granite America is an excellent company to work with and we all hope to do business with each other again in the future. This is my second project working with Granite America and I hope to continue the relationship.

Sincerely,

Hanover R.S. Ltd. Partnership

Jeremy Bigelow
Project Manager
